

Using this RASE Template

RASE stands for **R**esources, **A**ctivities, **S**upport and **E**valuation (Churchill et al., 2013). RASE is a framework to assist in the design of online learning experiences. The framework indicates that you need a mix of these four components for online learning to be successful.

- Read about the [four elements of RASE](#)
- Watch a UAL [presentation about RASE](#)

You can use RASE to consider your Unit week-by-week or as a whole. Worked examples:

- Week example (from LCF) . See next slide.
- [Whole unit](#) example (external to UAL)

Example - Week 1: Workshop

Resources	Activities	Support	Evaluation
<ul style="list-style-type: none"> • Moodle intro • Fashion Identity PowerPoint • Briefing on Research – no file in Moodle? Journal/Essay • Pre-record lecture? • Workshop on digital group working? • AI Generated Captions 	<ul style="list-style-type: none"> • Discussion – What is Culture? What is Cultural Identity and Where does it come from. • Start research Journal • Group work on presentations • Community building icebreaker 	<ul style="list-style-type: none"> • Week 1 Pre-session email • Week 1 Post-session email • Video on how to access and use Moodle • Links to help resources on LCF Digital Learning website • Digital group working? • How to access Collaborate • Digital Creative Attributes? 	<ul style="list-style-type: none"> • none in week 1

Considerations:

1. How long is the lecture?
2. Can lecture be pre-recorded?
3. Can students either complete the discussion asynchronously or reflect on the discussion after?
4. Where is the research journal created? Can this be online?
5. How will group work be done?
6. Pre-record briefing?
